Wire stripper electronics

CS 100

Transportable, fast and precise wire stripping machine

GLW
CRIMPING TECHNOLOGY

Technical specifications are subject to change according to possible needs and without notice.

FEATURES

- Perfect for various industries and applications, including: Electrical, Automotive, Industrial and Home DIY Projects
- Simple operation via touchscreen
- Full and partial stripping
- Adding and editing favourites
- Extremely fast working cycle time
- Operation lock (lock mode) for settings possible
- Illumination of the working area
- V-shape blades for all common cable types
- Durable and reliable

OPTIONS

- Call up and save favorites via barcode scanner
- Round blade and flat blade for special cables

TECHNICAL SPECIFICATIONS

	CS 100
Cross section	0,08 - 10 mm²
Cable diameter	max 6 mm
Stripping length	2 - 20 mm
Partial stripping length	1 - 20 mm
Minimum lenght + Stripping length	15 mm + X
Cycle time	0,3 sec
Stripping blade	V-shape, round blade(opt.), flat blade(opt.)
Power supply	100/115 VAC - 230/240 VAC 50/60 Hz
Dimensions & weight	372 x 149 x 255 mm / 9,5 kg

CE Conformity: CS 100 is fully compliant with CE regulations and EMC equipment guidelines for mechanical, electrical and electromagnetic compatibility.

Note: we recommend to send samples with the application requirements for a preliminary examination.
