Programmable benchtop wire stripper

CS 60

Portable, simple, and intuitive electric wire stripper

GLW
CRIMPING TECHNOLOGY

Technical specifications are subject to change according to possible needs and without notice.

FEATURES

- Machine for stripping wires and cables with cross-section from 0,08 to 6 mm² and diameter up to 6 mm
- Suitable for small-batch applications
- Simple and intuitive operation
- Rapid programming of length, strip length, and cross-section
- Entered parameter values are clearly visible on the display
- Extremely fast work cycle time
- Automatic adjustment of closing force according to cross-section
- Compact and portable unit thanks to the dedicated carrying handle
- V-blades for all common types of cables
- Integrated counter for monitoring produced quantities
- Full or partial insulation stripping

OPTIONS

- Shaped, radial, and flat blades for special cables
- Diamond clamping for very hard materials

TECHNICAL SPECIFICATIONS

	CS 60
Cross section	0,08 - 6 mm² / AWG 28 – 10
Cable diameter	max 6 mm
Stripping length	2-20 mm
Minimum lenght + Stripping length	15 mm + X
Cycle time	approx. 0,3 sec
Stripping blade	V blades
Power supply	100/115 VAC - 230/240 VAC 50/60 Hz
Dimensions & weight	363 x 141 x 221 mm / 9,5 kg

CE Conformity: CS 60 is fully compliant with CE regulations and EMC equipment guidelines for mechanical, electrical and electromagnetic compatibility.

Note: we recommend to send samples with the application requirements for a preliminary examination.
